

AWR LLOYD APPOINTS NEW MANAGING DIRECTOR FOR POWER & UTILITIES

1st November 2017

We are very pleased to announce that Bart Lucarelli has agreed to join AWR Lloyd with immediate effect as Managing Director for Power & Utilities. Bart brings heavyweight expertise in a number of key industries of critical relevance to the firm: power, coal, LNG and solar.

Bart has over 3 decades of experience in the Asian and African energy sectors:

- President of Roleva Energy (formerly LP Power Consultants), 2004-2017: consultancy services to clients in the Southeast Asian, Indian and Australian power, coal, gas and solar sectors
- VP - Asset Management / General Manager of Quezon Power, 1996-2004 based in Philippines, Thailand and Singapore: coal-fired power plant commissioned 2000 delivering power to the Luzon grid in Philippines. Quezon was acquired by EGCO in 2012.
- Manager, Business Development - Asia in Hong Kong, BHP Power, 1995-96
- Senior Energy Economist, Lahmeyer International, a German engineering group, 1985-1995: planning and consulting services for Asian (Indonesia, Thailand, Pakistan) and African (Malawi, Lesotho) energy projects
- City Planning Department, University of California, Berkeley, 1984-85
- Taught Economics at the University of Petroleum & Minerals, Dhahran, Saudi Arabia 1981-83
- PHD (energy planning - city and regional planning) and BA from University of California - Berkeley.
- Active AMCHAM member - Philippines, Thailand

Bart will be based in the Bangkok office and will work closely with other Managing Directors, Senior Advisors and Senior Consultants in the power and utilities sectors and related industries throughout the Asia-Pacific region.
